COMPLETE PREMIUM PLATFORM

Powerful tools for a reliable timetable

Build the timetable, solve operational problems and keep the final schedule controlled from one workspace.

Smart automatic generation

Create balanced schedules while respecting teacher, class, subject and room constraints.

Three timetable alternatives

Compare independently generated options, quality scores and the recommended best arrangement.

Automatic repair and validation

Detect missing data, clashes, workload issues and invalid allocations, then repair problems before publishing.

Clash-safe editing

Move or swap lessons while the system protects against teacher, class and room conflicts.

Teacher cover and workload

Find suitable daily cover teachers and review weekly teaching loads for fairness.

Exam and invigilation planner

Prepare exam timetables and assign balanced invigilation duties without teacher or room clashes.

Formal approval and certificate

Record the authorized approval of a timetable and generate a clear approval certificate.

Rooms, laboratories and campuses

Protect specialist rooms, improve facility use and check travel time between campuses.

Cloud backups and revisions

Retain recent saved versions, restore an earlier timetable and review the change history.

Secure staff access

Create staff accounts and distribute timetable views through the protected school portal or WhatsApp.

Fast Excel setup

Bulk import teachers, classes, subjects, rooms and lesson allocations using the downloadable template.

Professional exports

Download editable Word and Excel files, print-ready PDF documents and CSV data.

COMPLETE OUTPUT

12 timetable views from one set of school data

Give administrators, teachers, learners and departments the exact view they need.

✓ Each class timetable	✓ Each teacher timetable	✓ Each classroom timetable
✓ Each subject timetable	✓ Summary of classes	✓ Summary of teachers
✓ Summary of classrooms	✓ Summary of subjects	✓ Complete lesson grid
✓ Teachers wall poster	✓ Classes wall poster	✓ Classrooms wall poster

FROM DATA TO PUBLICATION

A guided six-step workflow

1	School setup	Set days, periods, lesson times, term and school details.
2	Teachers and classes	Add school resources manually or through Excel import.
3	Lesson allocation	Enter weekly teaching requirements for each class and subject.
4	Advanced rules	Configure availability, rooms, locks and scheduling constraints.
5	Generate and export	Compare alternatives, validate results and export every view.
6	School operations	Run repairs, cover, exams, revisions and formal approval.

SIMPLE SCHOOL PRICING

Choose the access period that fits your school

Every plan unlocks Premium tools. M-Pesa Express activates access automatically after Safaricom confirms payment.

ONE TIMETABLE	ONE SCHOOL TERM	ANNUAL SCHOOL
KSh 299	**KSh 699**	**KSh 1,799**
All Premium planning tools	Full Premium access	Everything in Premium
All 12 timetable views	Repairs, backups and revisions	Term and exam planning
Professional exports	Exam and invigilation tools	Staff access and change history
Ideal for one complete timetable	Best for term changes	Best value for the academic year

INSTANT ACTIVATION

How M-Pesa Express works

1. REGISTER	Create the school account and open the timetable workspace.
2. CHOOSE A PLAN	Select one timetable, term access or annual access and enter the M-Pesa phone number.
3. CONFIRM	Approve the Safaricom STK Push. Premium activates automatically after confirmation.

QUESTIONS SCHOOLS ASK

Premium answers before you begin

Does it prevent clashes?	Yes. Generation, validation and editing check teacher, class and room conflicts.
Can we import existing data?	Yes. Use the Excel setup template to import teachers, classes, subjects, rooms and allocations.
Can it prepare exam timetables?	Yes. Premium includes exam scheduling and balanced invigilation assignment with clash checks.
Can teachers receive their own timetables?	Yes. Produce individual teacher views and distribute them through the secure portal or WhatsApp.
Which files can we download?	Export editable Word and Excel files, print-ready PDF documents and CSV data.
Are timetable versions protected?	Premium retains cloud revisions so the school can restore an earlier saved version.
Can the school approve the final timetable?	Yes. Record formal approval and generate an approval certificate.
Does it work for different school structures?	The flexible setup supports Kenyan schools with configurable days, periods, classes, subjects, rooms and campuses.
